Profile

Courteous and enthusiastic, I am interested
In IT and everything in its orbit. I recently
began to be fascinated by web programming,
e.g. building websites(intended to be Front-End
Developer). I gained experience of working in
this area. As this area complements my studies,
I am keen to gain more experience in this field.
For this reason, I am looking for a company willing
to offer me a placement among their developers
In return, I would offer my full commitment
and be a pleasant and friendly addition to your
team.
I am therefore currently looking for a job or an
internship as a front-end developer.
